Figure 1 consists of two side-by-side scatter plots. The left plot shows a dense distribution of points, while the right plot shows a sparse distribution. The points are labeled with their respective symbols: circles, crosses, and triangles. The left plot has a higher density of points, particularly in the upper-left and lower-left regions. The right plot has a lower density of points, with most points concentrated in the upper-right and lower-right regions. The points are distributed across the entire 2D space, with some clusters and some isolated points.
